RENEWAL NOTICE – USGA Handicapping Service for 2021

UNITED STATES GOLF ASSOCIATION HANDICAP Through GHIN

Current Subscribers:

We are pleased to announce that we are once again offering a USGA handicapping service in 2021. **We will be switching from the Golfnet platform to the GHIN Network. The annual charge for this service is \$35 per person.** To continue uninterrupted service, it is advised that you consider continuing your service at this time by returning this form along with your payment to the address above.

New Subscribers:

Handicapping service is available to our golfers on a seasonal basis. The cost is \$35 per person. Once you have registered for a handicap you can find your name in the appropriate posting computer (usually within 3 days). At that time, you may begin to record the date, your score [without adjustments if you are new to the system], the slope and course rating. Whether you play “away” or at “home” you will need to record all scores. At Lindenwood, use the slope and rating from the correct combination of nines that you played to arrive at your 18-hole total. You can use nine-hole scores if you play the nines consecutively and use different nine-hole courses. Once a handicap has been established you will be responsible for adjusting your scores according to instructions in the locker rooms. If you do not specify what tees you used, then we will assume that the men used the “Blue” tees and the women used the “Red” tees. Handicaps are computed every day after a round is played. You may also post your scores “On-line” at www.ghin.com, the GHIN App or through links on our website www.lindenwoodgolf.com.
